“

Fantastic service and have always been impeccable with timings – the team make the journey's into The O2 seamless and I look forward to working together again.

”

BIG GROUP (Mastercard)

“

Working with Uber Boat by Thames Clippers has been a delight for me as a person and us as a company.

We are always presenting them with challenges, never to be told “no” always “let’s take a look” (and they always appear to succeed).

”

Denholm Port Services Limited

# Love it!

Uber Boat by Thames Clippers are the fastest and most frequent fleet on the river, with 22 vessels available for private hire. Each of our catamarans are spacious, stylish and staffed by a friendly and experienced crew.

For our corporate and private clients we offer seven different sizes of vessel with the option of carrying between 12 and 230 guests. The route, length and speed of journey, stop off locations, style of catering, use of facilities on board and time of travel are flexible.

This means we can deliver a vast range of events; from business meetings, presentations, networking days, conferences, celebrity parties and product launches to marriage transfers and excursions for family and friends.

We apply our expertise in hospitality and knowledge of the river to create the right mood and feel for your specific function.

# Yum!

Whether you're travelling in the morning, afternoon or evening, we can provide for your every need and occasion. From wedding transfers to corporate drinks receptions we will customise our offer to suit you and your clients requirements.

# Our fleet

A choice of 23 vessels  
ranging from 12 to 230  
capacity

We're proud to offer a 23 strong fleet of the fastest most versatile vessels on the Thames. Whether you're looking for a quick transfer option through the heart of the capital or a leisurely cruise while sipping champagne and watching London's skyline sparkle in the moonlight, we have a boat to suit you.

# 230 | Hybrid 🌱 Our flagships, designed for large groups with an eco-friendly touch

All hybrid vessels in our fleet were built at Wight Shipyard Co in East Cowes on the Isle of Wight, showcasing local craftsmanship and innovation. These vessels boast an impressive design that delivers an almost 90% reduction in CO<sub>2</sub>e emissions. Operating solely on electric power within Central London, between Tower and Battersea Power Station piers, the hybrid boats recharge while using biofuelled power on the rest of their journey. This dual-power approach significantly enhances sustainability, contributing to a cleaner, greener London.

# Vessel rates

All of our vessels are charged at an hourly rate, with any additional hire time or return journey charged at 50% of the standard hourly rate. Executive Launches are charged per hour or per transfer. All river travel is zero-rated for VAT.

Pier fees are charged per call and added to the vessel hire cost; these vary depending on the piers used. Pier availability and pricing are available on request.
