### Question 1

Every passenger must have a seat, so it's important to know how many passengers are on board. If there are 50 people on board when we arrive at Greenwich Pier, 10 people get off and 40 people get on, how many people are on board?

### Question 2

Uber Boat by Thames Clippers have 8 large boats that need 4 crew members per boat to operate. How many crew members are needed if all 8 boats are running?
