

# Commute by river

## Assisting your return to work

### Our service

Uber Boat by Thames Clippers are the leading River Bus service on the Thames running a 20 minute frequency service. We serve key London piers spanning from Woolwich (Royal Arsenal) in the East, to Putney in the West.

With the river flowing through the heart of the city, our journey times can be favourable when compared to other public transport options such as:

- London Bridge to Canary Wharf within 15 mins
- Battersea to Embankment within 15 mins
- North Greenwich to the city within 30 mins

### Agile working

**Flexible Carnet Ticket** - 4, 6, 10 or 20 ticket options allowing you to save up to 20% compared to tapping in and out on an Oyster or contactless payment.

**Season tickets** - weekly, monthly or annual allowing you to save up to 71% and receive 15% off at the coffee bar onboard.

All tickets are available to purchase via [our app](#).

### Your safety

We have implemented a range of **enhanced hygiene and social distancing measures** including new on board hand sanitiser stations and regular cleaning throughout the day.

There is naturally more space on board our vessels, allowing us to implement social distancing measures to a greater degree than other transport modes, such as London Underground. Passengers will also enjoy contactless journeys, fresh air passing through the cabin and double the capacity for cycles.

#### London Underground

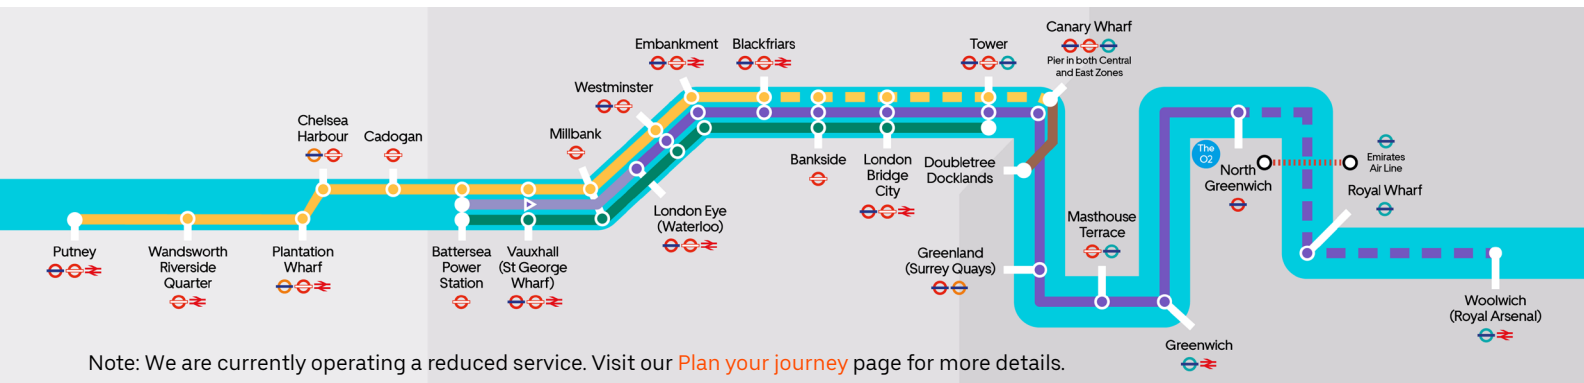

Note: Diagram based on 15% of London Underground train capacity being used versus an average of 60% capacity on our vessels

### Park and glide

1 day, 3 day and weekly tickets are now available that grant access to park your car securely at The O2 and then get a return trip from North Greenwich Pier.

More information available on our [booking site](#).
